

**TRANSGENDER DAY OF  
REMEMBRANCE**

# Transgender Day Of Remembrance

On Transgender Day of Remembrance, Rape Crisis Scotland joins others in remembering the 3664 trans people reported murdered around the world.\*

In Scotland, many trans women and men experience rape & sexual assault\*\* as well as other forms of violence.

We commit to challenging the transphobia that underlies this and to providing accessible, welcoming, affirming support to trans women and men.

Help us raise awareness of the violence experienced by trans people

If you have been affected by sexual violence and are looking for support please call the Rape Crisis Scotland National Helpline on 08088 01 03 02 - Open daily 6pm-Midnight

\*A total of 350 trans and gender-diverse people were registered murdered between 1 October 2019 and 30 September 2020, representing a 6% increase in reported murders from the 2019 update. The total number of reported cases worldwide between 1 January 2008 and 30 September 2020 was 3664.
